

1040 WIREFRAMES

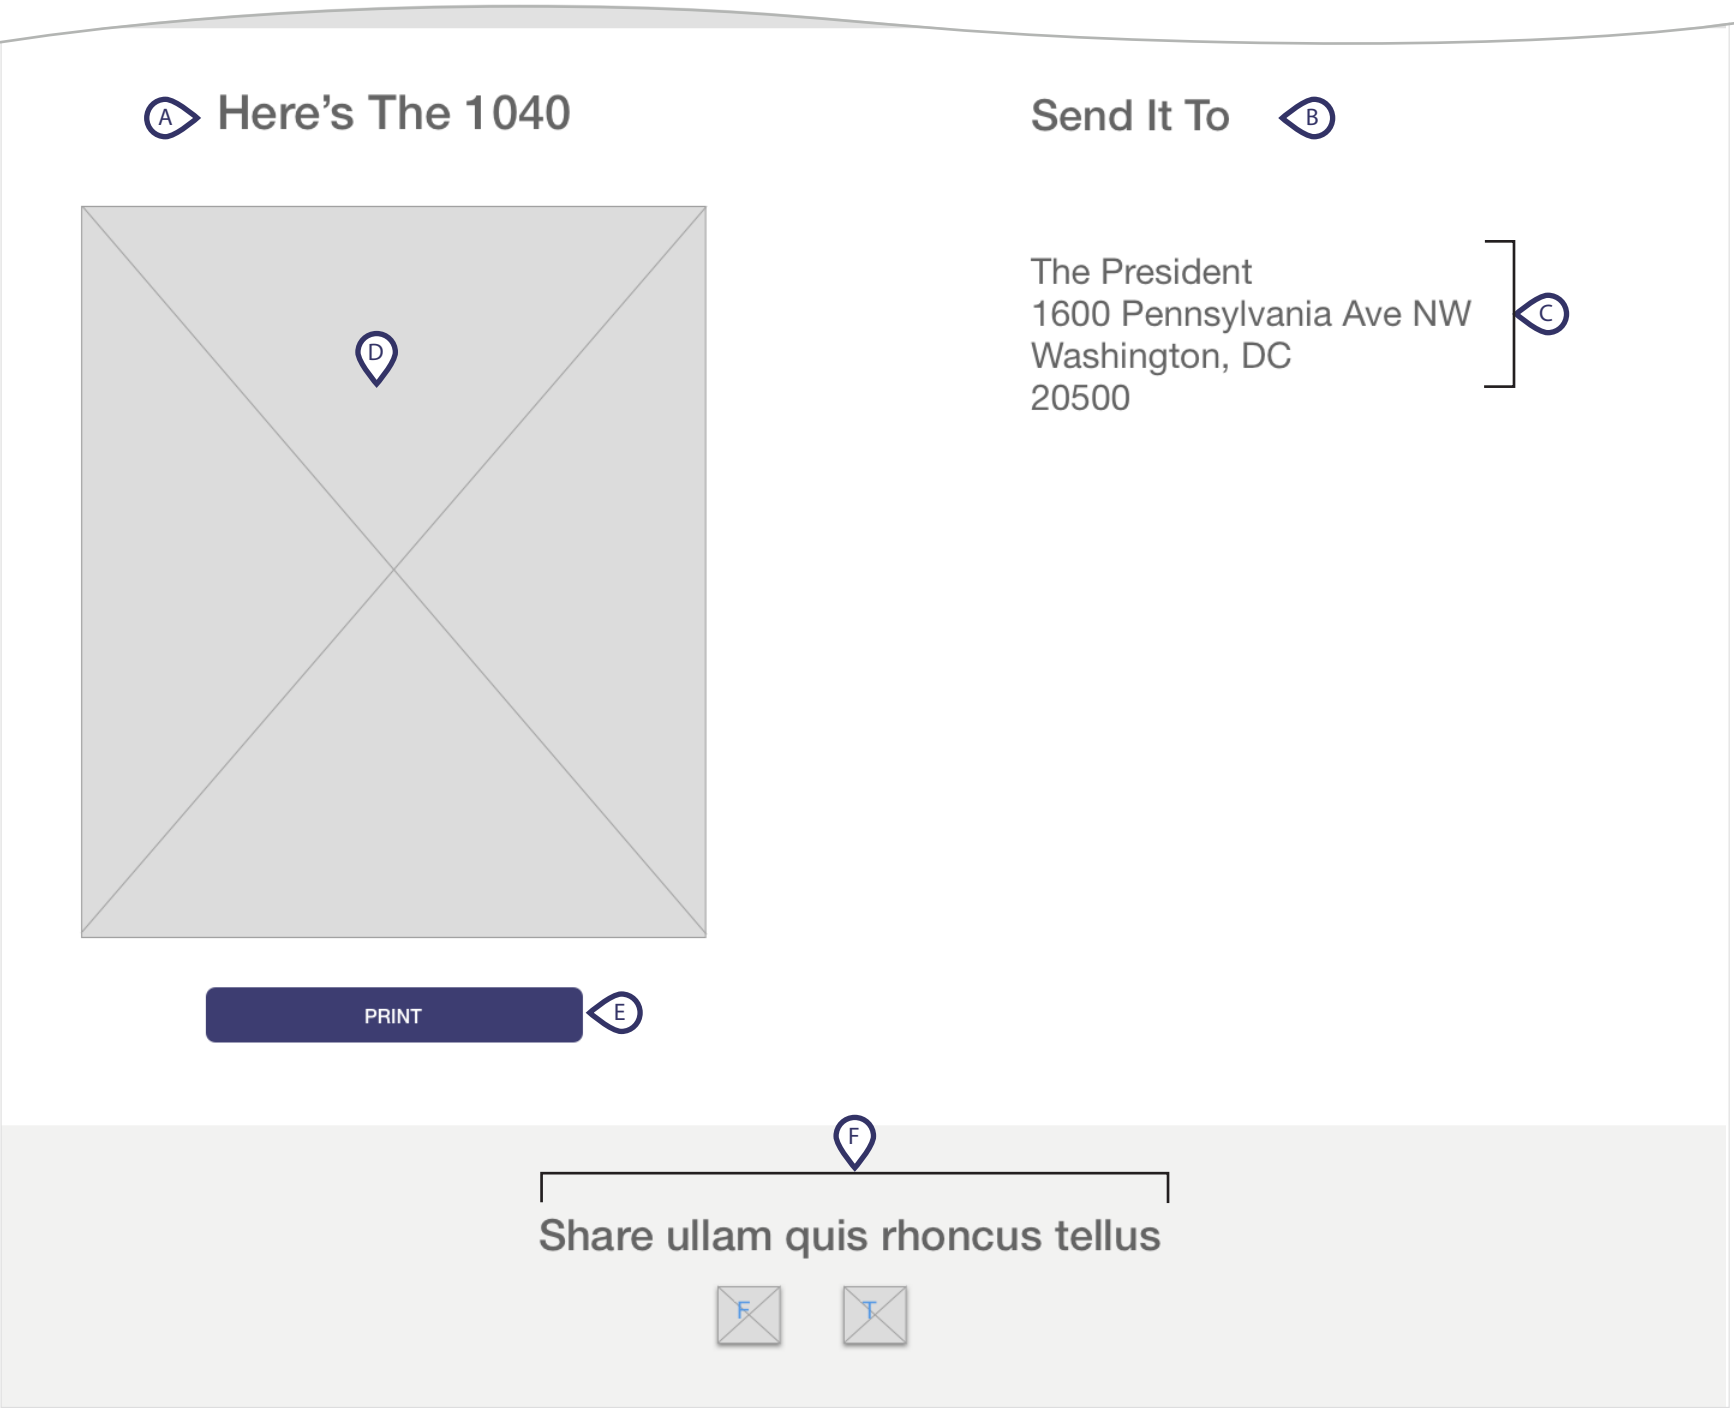

DESKTOP: DEFAULT LANDING PAGE 1/2

NOTES

- A Logo / Image. Currently static, but should be made clickable as the "home" button on future iterations.
- B Social media buttons. When tapped, each button opens up a new tab in the user's default browser and takes them to the 1040fT social media page. For example if a user hits the "Facebook" button then a new tab opens the 1040fT Facebook page.
The social media platforms the buttons link to will be:
Facebook
Twitter
Instagram
- C Section Header
- D Section body copy
- E Section Header
- F Section body copy

DESKTOP: DEFAULT LANDING PAGE 2/2

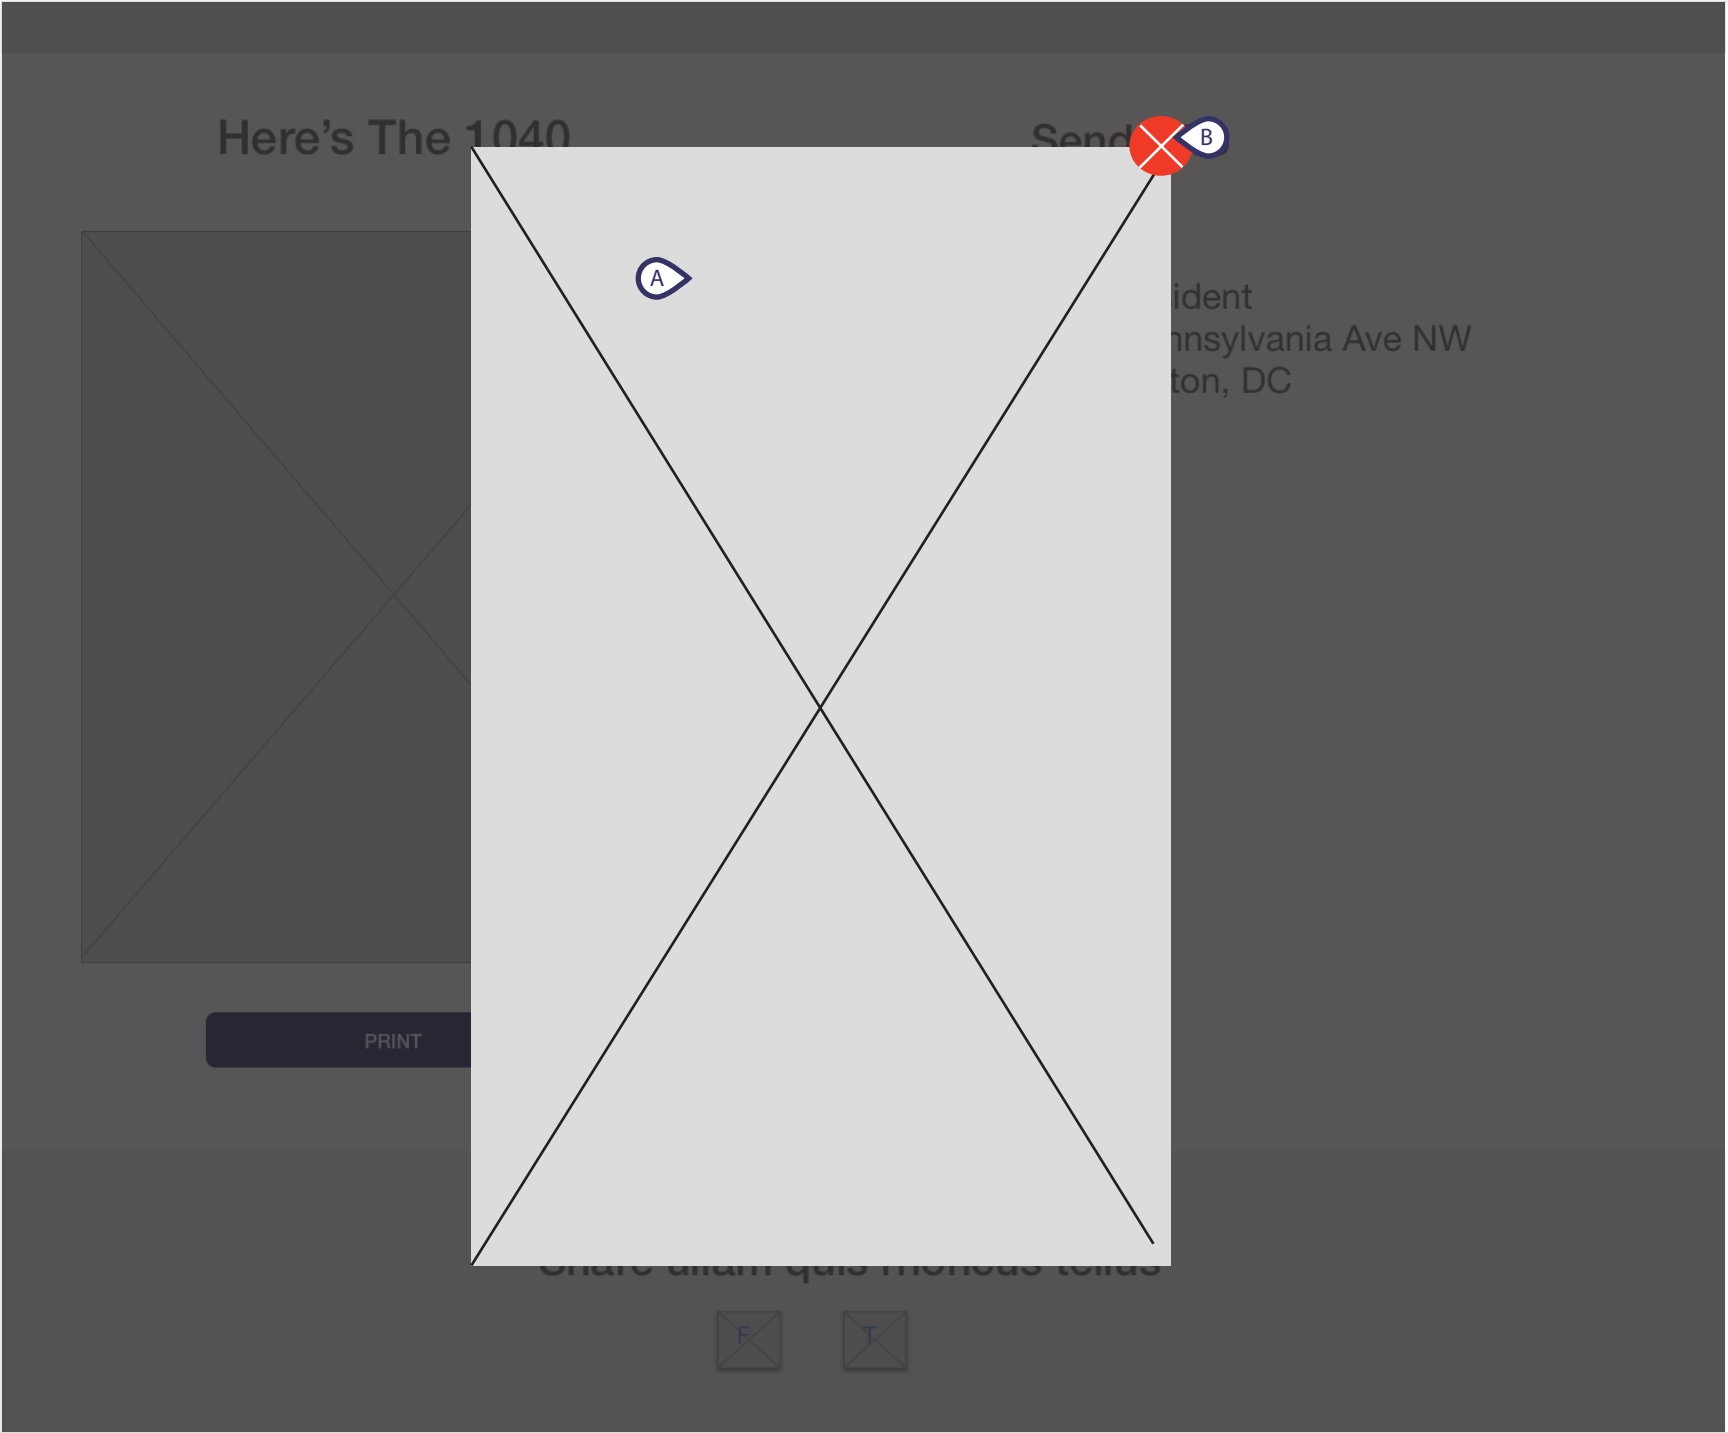

NOTES

- A Header text for the 1040 section
- B Text CTA for the address
- C The address
- D Image of the 1040 form. Form can be pulled from <https://www.irs.gov/pub/irs-pdf/f1040.pdf>

When tapped, the image expands and the background is lightboxed out.
- E Print button. When tapped the computer's default printer option is activated and the user can choose to print out the 1040. Hitting this button would have the exact same response as going to file and selecting print (except only the 1040 form will print).
- F Share to social media buttons. When tapped a box will appear asking the user if they want to share this page / experience on their social media page. For example, the user hits the "Twitter" button and then sees a pop up message asking if they'd like to share 1040fT as a tweet.

The social media platforms users can share to will be Facebook and Twitter

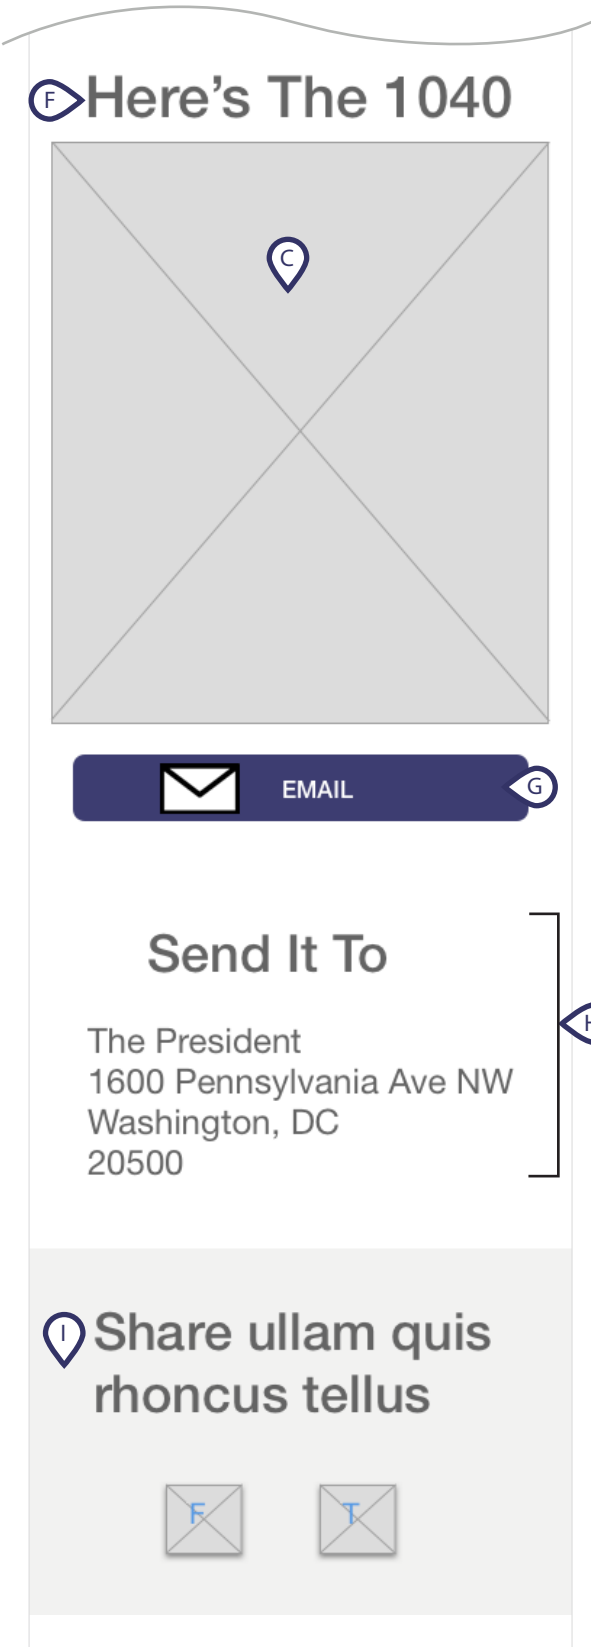

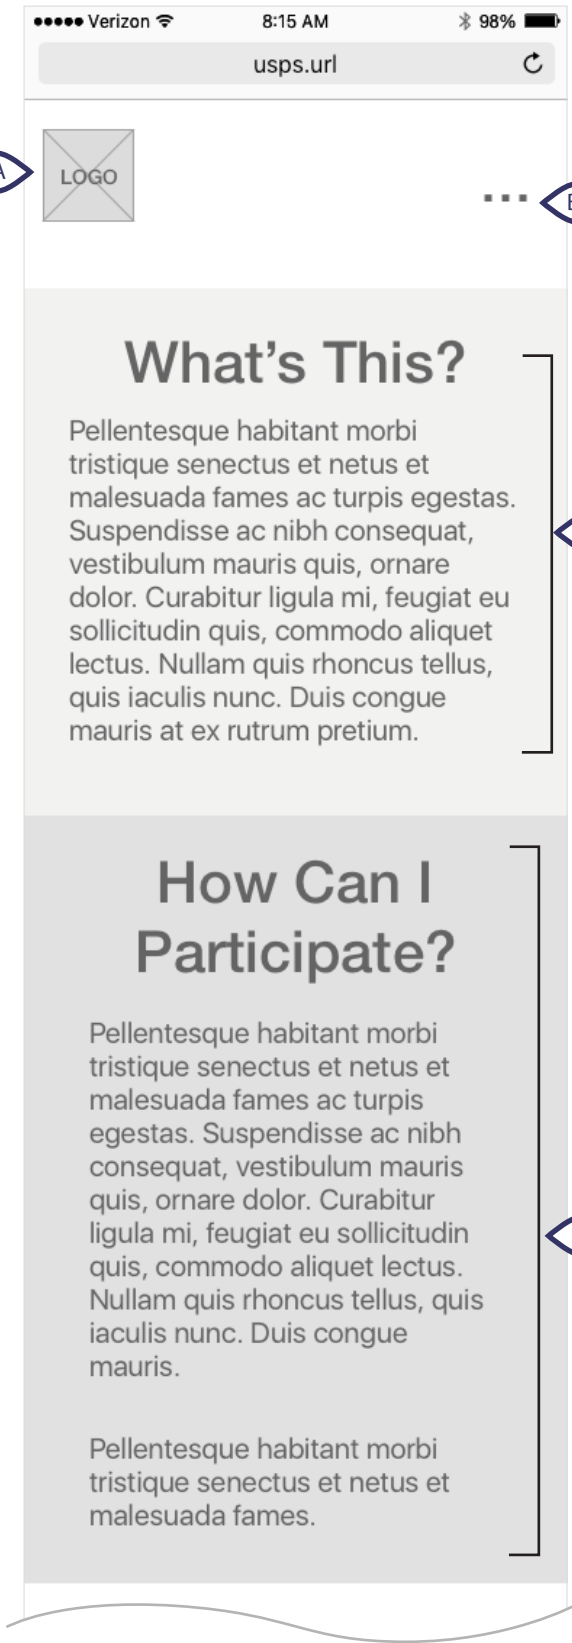

DESKTOP: 1040 LIGHT BOXED

NOTES

- A 1040 Image after user has tapped on it. Background lightboxed out.
- B Close button. When tapped closes out and returns user to main landing page.

MOBILE: DEFAULT LANDING PAGE

NOTES

- A Logo / Image. Currently static, but should be made clickable as the "home" button on future iterations.
- B Menu button. When tapped a tray rolls up allowing users to visit the 1040fT social media page. For functionality see page 5
- C Image of the 1040 form. Form can be pulled from <https://www.irs.gov/pub/irs-pdf/f1040.pdf>

On mobile the 1040 is a static image

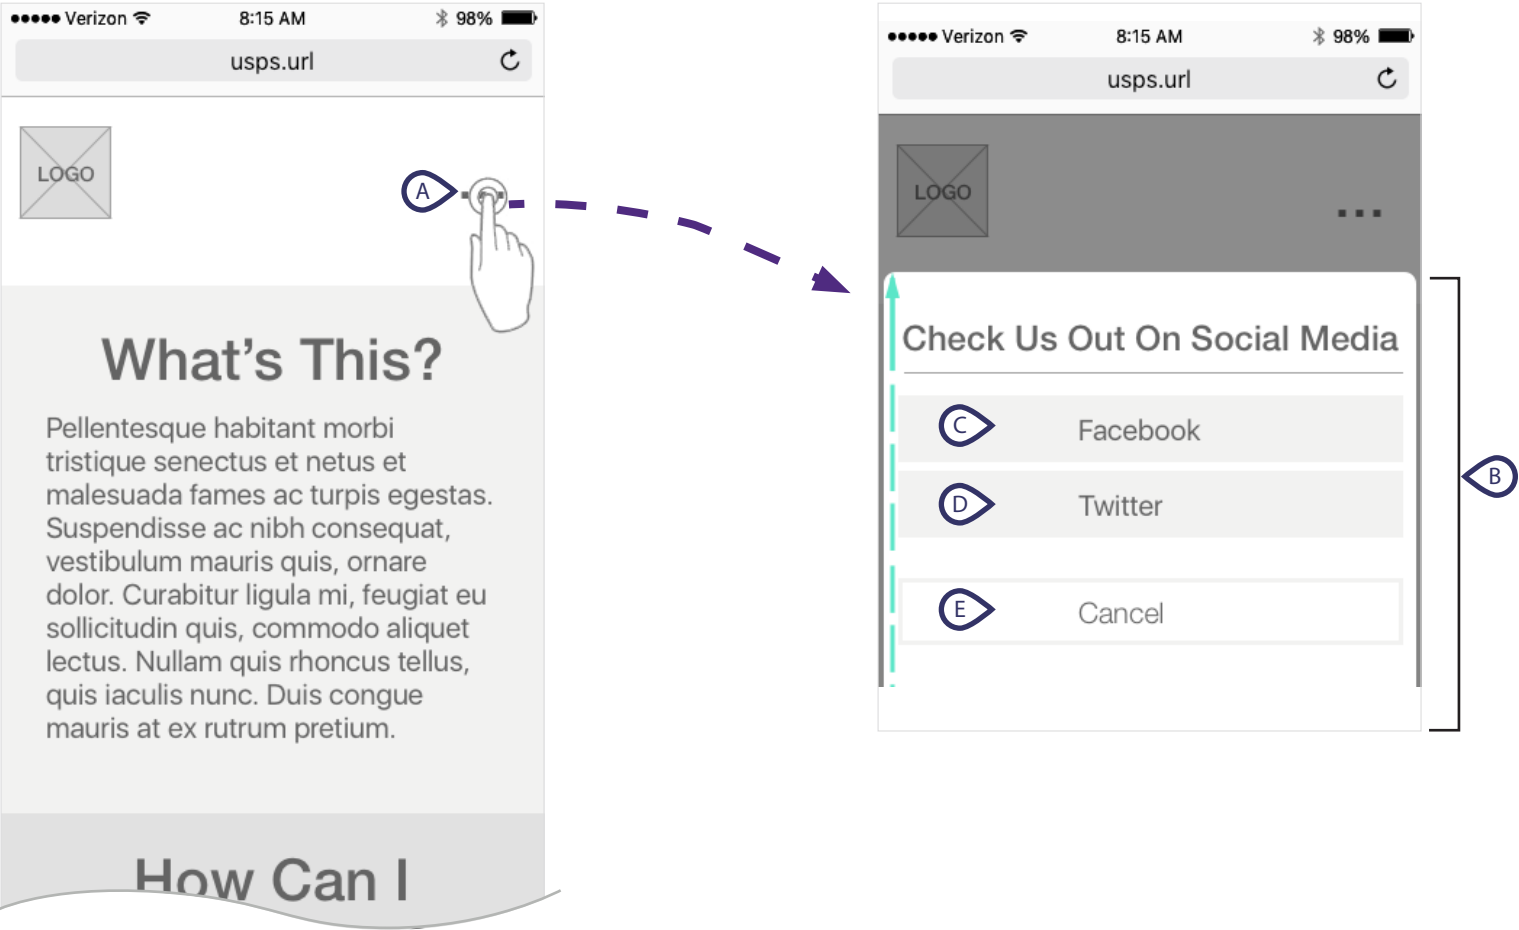

- D Module is made up of Header and body copy.
- E Module is made up of Header and body copy.
- F Header text for the 1040 section
- G Email button. When tapped activates the mobile device's default email preference and creates a new email with the 1040 form attached. The user can email themselves, or anyone else, the form to print it out at their convenience.

H The address

- I Share to social media buttons. When tapped a box will appear asking the user if they want to share this page / experience on their social media page. For example, the user hits the "Twitter" button and then sees a pop up message asking if they'd like to share 1040fT as a tweet.

The social media platforms users can share to will be Facebook and Twitter. Since the user is on a mobile device, tapping the Facebook button (for example) will open the Facebook native app on their phone.

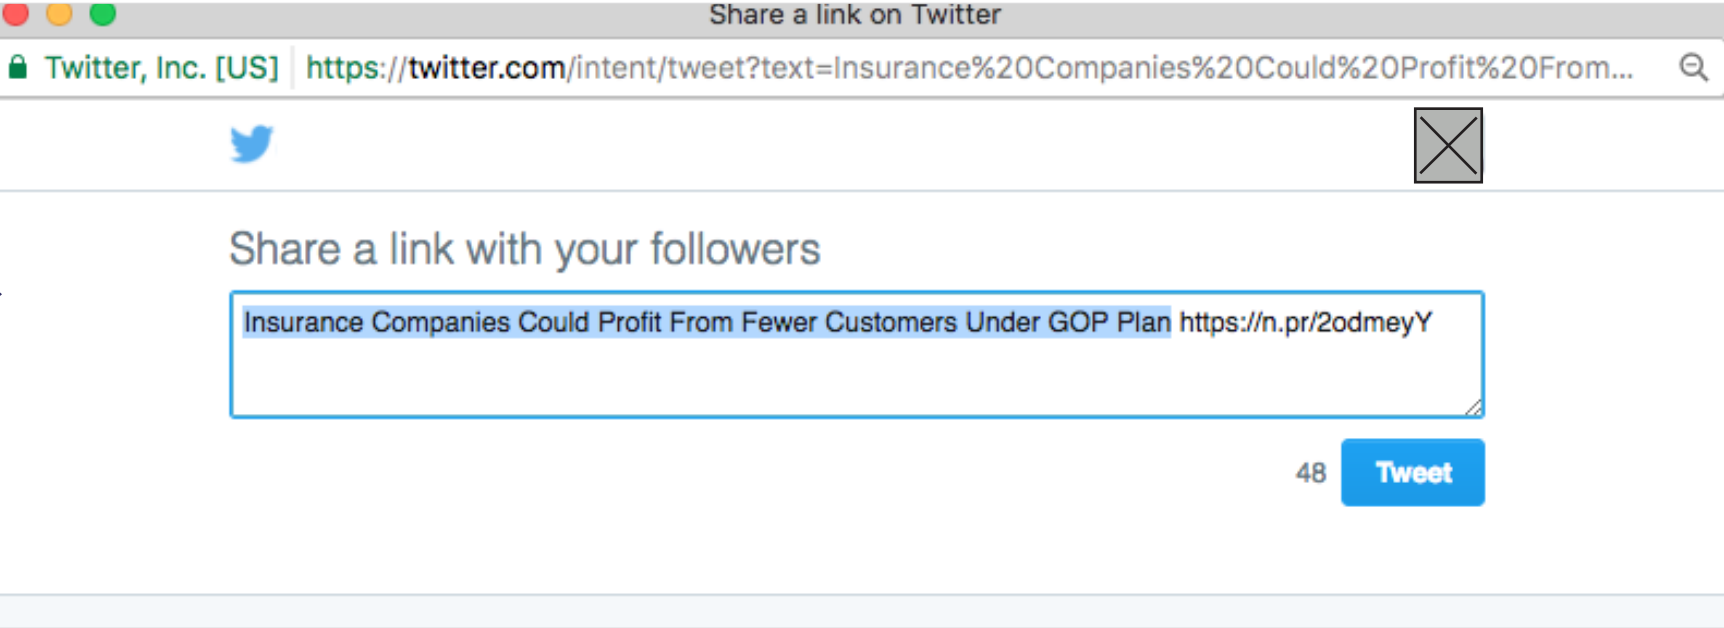

MOBILE: MENU BUTTON TAPPED

NOTES

- A Menu button. When tapped a tray rolls up allowing users to visit the 1040fT social media page.
- B Tray rolls up with messaging that the user should check out 1040fT's social media sites. The tray is made up of buttons clearly marked to indicate which platform the user wants to visit. When tapped the user is taken to that page (for example Instagram). If the user has the native app on their mobile device then it should open and take the user to 1040fT's account page.
- C Facebook button- when tapped takes the user to 1040fT's Facebook page. If sensed on mobile device then native Facebook app should open.
- D Twitter button- when tapped takes the user to 1040fT's Twitter page. If sensed on mobile device then native Twitter app should open.
- E Cancel button- when tapped closes the tray by rolling it back down and returning the user to the feault landing page.

DESKTOP: SHARE BUTTONS TAPPED

NOTES

- A Default pop up to share the page on Twitter
- B Default pop up to share the page on Facebook
